Retaliation

Adverse action, including but not limited to reprisal, interference, restraint, penalty, discrimination, intimidation, or harassment.

Policy Statement

Hazing is a crime in the Commonwealth of Virginia and is prohibited in accordance with this policy and the University's Standards of Conduct. The University does not condone hazing in any form. In addition to students, this Policy applies to employees with involvement in student organizations or groups, including those acting in an official capacity as an advisor or coach.

1. Retaliation:

The University prohibits retaliation directed against a person for making a good faith complaint under this policy or who testifies, assists, or participates in an investigation or adjudication process. Retaliation may exist even when the underlying complaint is without merit or not substantiated.

2. Support for Reporting Allegations of Hazing and Retaliation:

The University community encourages the reporting of hazing behavior or retaliation. Parties or witnesses may be hesitant to report this behavior or participate in an investigation because they fear that they themselves may be in violation of certain policies, such as underage drinking or illicit drug use at the time of the incident. To encourage reporting under this policy and participation in the investigation process, the University will not pursue disciplinary action against complainants, respondents, or witnesses for disclosure of minor policy violations — such as illegal personal consumption of drugs or alcohol — where such disclosures are made in connection with a good faith report or investigation of hazing or retaliation. This provision does not apply to more serious allegations such as physical abuse of another or illicit drug or alcohol distribution that contributed to the commission of a policy violation.

3. Investigations of Allegations of Hazing and Retaliation:

State and/or local law enforcement agencies investigate allegations of hazing under Virginia law. The Division of Student Affairs investigates allegations of hazing under University policy. (For more information and resources aimed at hazing prevention and education, see [Hoos Against Hazing](#).)

4. Duty to Report:

Consistent with University Policy [HRM-028: Preventing and Addressing Threats or Acts of Violence](#), faculty, staff, and students should report hazing behavior as defined above to Student Affairs at 434-924-7133 or through [UVA Just Report It](#). Confidential employees are not required to report hazing behavior. Anyone with general concerns about hazing and/or the well-being of any student is also encouraged to contact Student Affairs. Anonymous reports are accepted; however, the University's ability to investigate anonymous reports may be limited.

5. Prevention Training:

Consistent with [Virginia Code Section § 23.1-820](#), the University will conduct hazing prevention training for all current, new, and potential new members of each student organization whose new members have a period of time between invitation for membership and initiation into membership. This interval between invitation and initiation is often referred to as a “pledge period” or “new member period,” and individuals in this period are not considered full members of the organization. The training must include extensive, current, and in-person education about hazing, the dangers of hazing, including alcohol intoxication, and hazing laws and policies. The training must also explain that the University's disciplinary process is not to be considered a substitute for the criminal legal process. For any student organization that has an advisor of record, the advisor must also receive hazing prevention training.

6. Public Reporting:

The University will report hazing policy or law violations in the following manner, in compliance with [Virginia Code Section § 23.1-822](#), which states:

- A. *Each institution shall maintain and publicly report actual findings of violations of the institution's code of conduct or of federal or state laws pertaining to hazing that are reported to campus authorities or local law enforcement. Investigations that do not result in findings of violations of codes of conduct or convictions in a court of law shall not be included in the report. The report shall include:*
1. *The name of the student organization recognized by an institution of higher education or local organization, as such name of the local organization is known to the institution;*
 2. *When the student organization recognized by an institution of higher education or local organization was found responsible or convicted of misconduct pertaining to hazing;*
 3. *The date on which such hazing misconduct occurred and the dates that the investigation was initiated and concluded by the institution or local law enforcement; and*
 4. *Subject to the limitations in subsection B, a comprehensive description of the incident, including the findings, charges, and sanctions placed on the organization.*
- B. *Any reports made pursuant to subsection A shall not include any personally identifiable information of any students involved in the hazing misconduct and shall be subject to the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g.*
- C. *Each institution shall update the report described in subsection A at least 10 calendar days before the start of fall and spring academic semesters.*
- D. *Reports required pursuant to this section shall be available on each institution's homepage and Greek Life homepage, or its equivalent in a prominent location, and a hardcopy notice of the nature and availability of the reports, including the website address where they can be found, shall be provided to all attendees at student orientations.*
- E. *Each institution shall publicly maintain reports for a minimum of 10 years from the date of the initial disclosure of a report.*
- F. *Each institution shall annually update and report actual findings of violations of the institution's code of conduct or of federal or state laws pertaining to hazing made pursuant to this section to the Timothy J. Piazza Center for Fraternity and Sorority Research and Reform at The Pennsylvania State University to update each organization's national card and provide easily accessible documentation of all hazing incidents and provide additional awareness and easily accessible information on hazing.*

7. State Statute:

The state statute on hazing, [Section § 18.2-56 of the Virginia Code](#), states:

“It shall be unlawful to haze so as to cause bodily injury, any student at any school, college, or university.

Any person found guilty thereof shall be guilty of a Class 1 misdemeanor.

Any person receiving bodily injury by hazing shall have a right to sue, civilly, the person or persons guilty thereof, whether adults or infants.

The president or other presiding official of any school, college or university receiving appropriations from the state treasury shall, upon satisfactory proof of the guilt of any student hazing another student, sanction and discipline such student in accordance with the institution’s policies and procedures. The institution’s policies and procedures shall provide for expulsions or other appropriate discipline based on the facts and circumstances of each case and shall be consistent with the model policies established by the Department of Education or the State Council of Higher Education for Virginia, as applicable. The president or other presiding official of any school, college or university receiving appropriations from the state treasury shall report hazing which causes bodily injury to the attorney for the Commonwealth of the county or city in which such school, college or university is, who shall take such action as he deems appropriate.

For the purposes of this section, “hazing” means to recklessly or intentionally endanger the health or safety of a student or students or to inflict bodily injury on a student or students in connection with or for the purpose of initiation, admission into or affiliation with or as a condition for continued membership in a club, organization, association, fraternity, sorority, or student body regardless of whether the student or students so endangered or injured participated voluntarily in the relevant activity.”

8. Compliance with Policy:

Failure to comply with the requirements of this policy may result in disciplinary action up to and including expulsion or termination in accordance with relevant University policies and the University’s Standards of Conduct. Additionally, such prohibited actions may also be in violation of state or federal law.

Questions about this policy should be directed to the [Office of the Vice President and Chief Student Affairs Officer](#).
